

Over the years, DynaIndustrial has developed expertise in the repair and manufacture of steel mill mandrels. In our modern and spacious facility we are capable of handling the smallest repair to the complete design and manufacture of replacement mandrels, all in a cost efficient and timely manner.

Capacity and Capability:

- ▣ Approximately 45,000 square feet of operating space
- ▣ 60 ton overhead crane capacity
- ▣ Lathe capacity 41" swing with 314" between center
- ▣ Mill capacity 30" x 80" x 384" with 5-axis machining capability
- ▣ Team of millwrights provide disassembly, inspection and reassembly

Quality:

- ▣ ISO 9001:2015 Registered
- ▣ CWB Certified to W47.1 Div 2
- ▣ All mandrels are tested in-house to ensure they meet client specifications

Custom Solutions:

- ▣ In-house engineers provide custom designed solutions
- ▣ Ability to repair and retrofit components for economical benefit
- ▣ Ability to manufacture components as per original drawing specifications
